

Camp Mihaska Chapel

**Bourbon, Missouri
2009**

PROJECT OVERVIEW

Camp Mihaska sits at the foothills of the Ozarks along the scenic Meramec River way. Design Alliance's renovation and expansion of the camp's 1950 chapel provides additional seating for 250 and a new sound system. The rustic architecture echoes through the adaptive reuse of the steeple and the beautiful stone veneer and heavy timber siding, creating a peaceful place to worship.
