

College United Methodist Church

Warrenton, MO
2011

PROJECT OVERVIEW

An existing church facility adds a new foyer and a multipurpose room, doubling their worship capacity and providing two worship spaces, one contemporary and the other traditional. STL-DA addresses a complicated accessibility problem by designing a contemporary entrance with an open stairway and large windows. Congregates enjoy fellowship at the new coffee bar. The new multi-purpose room and gymnasium provides flexible areas that will accommodate growing ministries well into the future.

FLOOR PLAN

- A green room
- B future kitchen
- C family life center
- D multi-purpose
- E foyer
- F coffee bar
- G fellowship hall
- H existing kitchen
- I class rooms
