

**Edison:
Walnut Park III**

**St. Louis, Missouri
2008**

PROJECT OVERVIEW

St. Louis Design Alliance conceives and executes a three-phase master plan for Edison Schools of St. Louis on the former and long neglected Cardinal Ritter High School campus. Once the victim of vandalism, these 1950s 'Streamlined Modern' buildings have experienced a dramatic resurrection. Changes include minor refurbishing, a classroom annex, bathroom renovations, a new two-story multi-purpose building as well as additional parking, and playgrounds for kindergarten through eighth grades.
