

# Laclede Groves Memory Care

St. Louis, Missouri  
2010

## PROJECT OVERVIEW

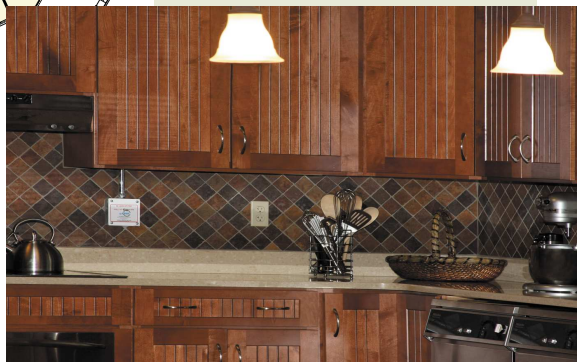

St. Louis Design Alliance provided the interior design for Lutheran Senior Service's skilled nursing facility. The design team updated the interior finishes, furniture, artwork, signage, and interior detailing. This memory care facility provides full continuing care for the residents in an environment that looks, feels, and operates more like a traditional home. All of the 24 private residential rooms have bathrooms with showers and small kitchen areas with a compact refrigerator and microwave. Common areas include the hearth room with fireplace, dining room, kitchen, beauty shop and sun porch.
