

Cape First Retreat Center

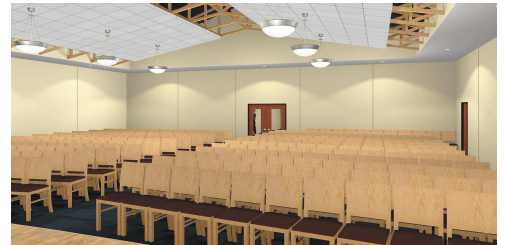

Cape Girardeau, Missouri 2010

PROJECT OVERVIEW

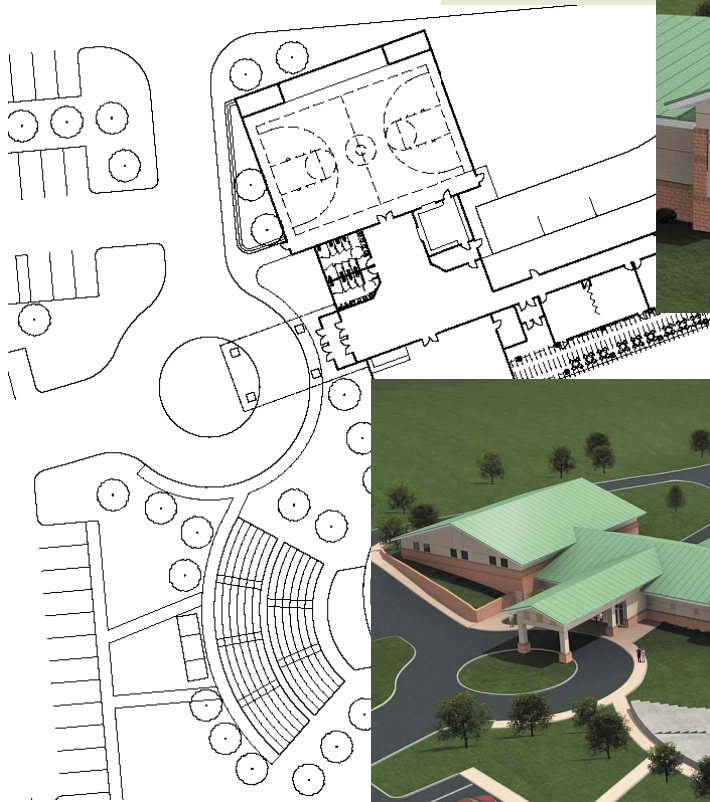

This 14,000 square foot retreat center is built along the edge of a beautiful lake and includes a gymnasium, chapel and 3 classrooms. The 15,000 square foot lodge is designed in 2 levels with all 24 units having a view of the lake. The classrooms lead out to a deck that sits right on the lake. Next to the chapel is an outdoor amphitheater. All the buildings are designed in a split-face block and metal style.
