

**Camp Mihaska  
Housing  
I and II**

**Bourbon, Missouri  
2009**

**PROJECT OVERVIEW**

*Nestled in the foothills of the Ozark Mountains, Camp Mihaska is a Christian retreat and sanctuary. STLDA designed two dormitories, each housing 120 campers plus staff quarters. A combination of stone and siding on the outside of each structure imitates the original rustic architecture of the camp. The front entry to each structure provides an outside plaza where staff and guests can relax or play games together. An indoor lounge allows participants another place to mingle.*
